“(arming ecomog)”

arm the west coast of Africa
with kettles and steyr augs
train them aim and coral runs
claymore evade the minimum age
of consent. Barrack tonnes and dodge
biscuits support a muscle / nervous
system veind with ring and lines
ammunition instows and docks
developing economic stocks in twelve
British universities stow the shocks
let them loose. train them to let loose
sight declines in civil wage strike
between black factions in the jewel
getting it over with quicker because
of the embedded stick and noose
& because they are bloody tame
