
“Infections of the Inner Ear”

© 2018 Colin James

Having moved on from basic
human anatomy, concentrating now
on pseudo linguistics since
the infamous Fritillary case.
A young man's head discovered totally immersed
within his girlfriend's, French name for vagina.
She cramped up and he was stuck. Vagin.
His muffled cries signaled the beginning
of a new career, inarticulateness
convinced us of our fragility.
